

Ayushman Bharat – Pradhan Mantri Jan Arogya Yojana (PM-JAY)

60 million Indians fall below poverty line every year due to catastrophic health expenditure

Relevance of PM-JAY for India's poor

Unmet health care needs of poorest 40%

- Chronic Morbidity – The incidence of chronic morbidity between the poorest 40% and richest 40% is comparable
- Hospitalization Rate – It is significantly lower in poorest 40%. Reason could be related to awareness, access and affordability of health care services

Source: Chronic morbidity: IHDS 2011-2012
Hospitalization Rate: NSSO 71st (excludes childbirth)

Benefits under PM-JAY

537
Million people

Poor and Vulnerable people across 107.4 million families

500
Thousand

Cover per family per year for serious illnesses

Evolution of scheme

Prime Minister's Scheme Launch Speech

“ Today I pray that that no poor has to face any such problem that they have to knock doors of the hospital. But if they do, then Ayushman Bharat is at your doorstep. The poor of my country must get all facilities that the rich get ”
